

Accomplishment Report

Submitted by:

Gin C. Inaba

Diploma in Computer Engineering Technology

Adviser: **Mr. Jorge Larobis**

A.Y.2021-2024

Introduction:

As a Graphic Design Trainee at Anjo World Theme Park, I have had the privilege of being part of an innovative and dynamic team dedicated to creating unforgettable experiences for visitors. Anjo World Theme Park, nestled in the vibrant city of Cebu, Philippines, has provided an exceptional platform for me to contribute my skills and grow both as a graphic designer and an IT.

Graphic Design Excellence:

My journey at Anjo World Theme Park has been marked by a relentless pursuit of graphic design excellence. I have played a pivotal role in designing and implementing captivating graphic elements for a myriad of projects within the park. From eye-catching promotional materials to visually stunning thematic displays, my work has significantly contributed to enhancing the overall visual appeal of the theme park. This experience has not only honed my creative instincts but has also instilled in me a deep appreciation for the impact of design on the overall visitor experience.

IT Expertise Advancement:

Complementing my role as a Graphic Design Trainee, my academic pursuit at CITE Technical Institute Inc. in the Diploma in Computer Engineering Technology has been instrumental in advancing my expertise in Information Technology. The completion of advanced training modules has not only expanded my theoretical knowledge but has also equipped me with practical skills crucial for navigating the complex landscape of modern technology. This dual focus on graphic design and IT has positioned me as a versatile professional, capable of seamlessly integrating creativity with technical know-how.

Android Expert:

One of the highlights of my journey has been the development of expertise in resolving Android software issues. Leveraging my IT background, I have successfully addressed various challenges related to mobile app functionality, ensuring a smooth and efficient digital experience for users. This Android proficiency underscores my commitment to staying at the forefront of technological advancements and being a resourceful problem solver in the ever-evolving realm of mobile technology.

Skills:

- ❖ Graphic Design
- ❖ Information Technology
- ❖ Android Troubleshooting
- ❖ Creative Problem-Solving
- ❖ Visual Communication
- ❖ Project Management
- ❖ Team Collaboration

Conclusion:

In conclusion, my time at Anjo World Theme Park has been a transformative experience, allowing me to blend creativity and technology seamlessly. The skills acquired during my graphic design training and IT education have not only elevated my professional capabilities but have also prepared me for the challenges of the ever-evolving landscape of design and technology.

As I embark on the next phase of my career, I am confident that the foundation laid at Anjo World Theme Park, coupled with my diverse skill set, will serve as a solid platform for continued growth and contribution to the fields of graphic design and information

technology. I look forward to applying these skills in future endeavors, creating impactful and innovative solutions in the exciting intersection of design and technology.
